Elevate

ELEVATE

The Elevate is not your average vending machine, it has a number of outstanding features, putting it ahead of the competition.

STOCK-CONTROLLED LOADING

Each section can be pulled out and angled down to enable rear loading of products. Stock rotation will never be an issue again! Product linking across each shelf can ensure never having empty rows until the final product is vended.

*No more manual stock rotation,
no more waste!*

SIMPLE LOADING, SPECTACULAR DELIVERY

Split Shelving

Each shelf is split into three sections, loading is now light, faster and easier.

Height Adjustable

Got a large bottle to vend? Any height bottle can be accommodated. (Shelf removal may be required for bottles over 500ml)

No Shims

Quickly and efficiently load bottles, small and large cans, glass and PET products.

Mechanical Arm

Delivers bottles and cans safely, every time. Accommodates glass and large bottles up to 850ml.

Pair the **ELEVATE** with the **H20** and create the **ULTIMATE** Plastic Free Solution

STRONG, ATTRACTIVE DESIGN | HIGH CAPACITY MACHINE

Elevate QUARTZ L

Custom Graphics Area
Vinyl graphic applied to the inside of the glass door.

(H) 1,830 x (W) 1,140 x (D) 880mm
